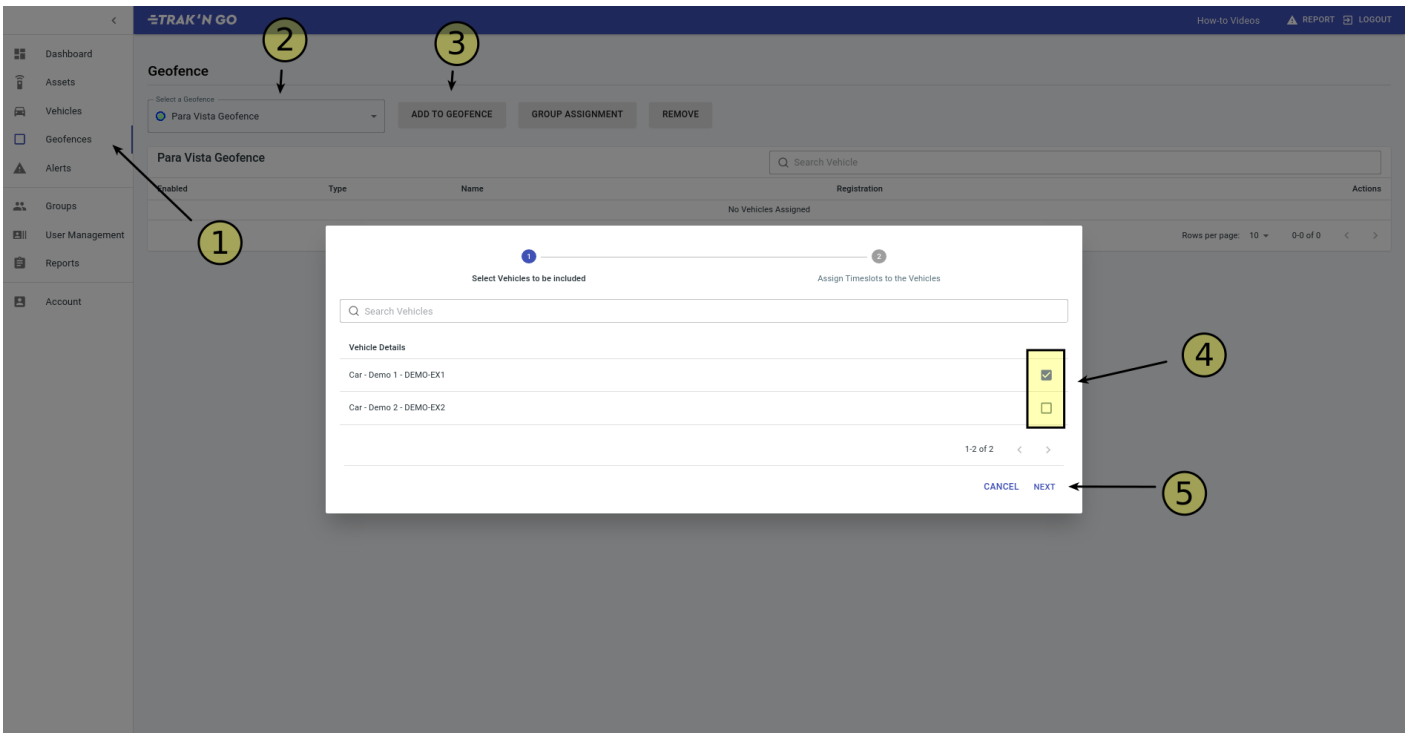
What are geofences?

With Geofences, you can setup a virtual perimeter on a map and assign vehicles to the geofence.

Anytime a vehicle enters or exits the geofence, you will be notified.

How to assign vehicles to a geofence?



1. Make sure you are on the Geofence page.
2. Select a geofence from the drop down list to open it.
3. Click ADD TO GEOFENCE button. This will bring up the dialog box.
4. Check the vehicles that you want to assign to this geofence.
5. Click NEXT to move onto the next page.
6. Click the + button to add a timeslot.
7. Configure the timeslot. From left to right you can:
   Name the timeslot, Select whether to notify you instantly or in a daily email, on entry or on exit, the start and end time for each day, days of the week and finally you click the red bin to remove the timeslot.
8. Click FINISH to save the changes.
