What are groups?

Groups are way to setup authorisation in Trakngo. In simple terms, It is a way to show or hide vehicles, assets, geofences or alerts to relevant users.

Groups are like buckets. Any user in the bucket will be able to see other vehicles, assets, geofences and alerts in the same bucket. Buckets can have overlapping items e.g. one user can be in multiple buckets.

How to add users, vehicles, assets, geofences or alerts to a group?

1. Make sure you are on the Groups page.
2. Select a group from the drop down to open it.
3. Click on the appropriate ADD button for what you want to add to the group.
4. From the pop up, check the items you want to add.
5. Click ADD to save the changes.
