

# How to change notification time for a vehicle inside a geofence?

The screenshot shows the STRAK'N GO web interface for managing geofences. On the left sidebar, the 'Geofences' menu item is highlighted with a circled '1'. In the main content area, the 'Para Vista Geofence' is selected from a dropdown menu, indicated by a circled '2'. Below this, a table lists vehicles within the geofence. The first vehicle, 'Demo 1', is highlighted with a circled '3' pointing to its 'Actions' column, which contains a pencil icon. A modal window titled 'Add Time Slots for the geofence' is open, showing a table with columns for Name, Instant, Enter/Exit, Start Time, End Time, Days, and Actions. The first row is for 'Weekday 24/7' and the second for '24/7'. A circled '4' points to the 'Days' column of the second row. A circled '5' points to the 'UPDATE' button at the bottom right of the modal.

Name	Instant	Enter/Exit	Start Time	End Time	Days	Actions
Weekday 24/7	<input type="checkbox"/>	Entry Exit	00:00	23:59	Mon Tue Wed Thu Fri Sat Sun	
24/7	<input type="checkbox"/>	Entry Exit	00:00	23:59	Mon Tue Wed Thu Fri Sat Sun	

1. Make sure you are on the Geofences page.
2. Select a geofence from the drop down to open it.
3. Click the pencil icon for the vehicle that you want make changes to.
4. Make the desired changes.
5. Click Update to save the changes.
